# HOME CARE

*"When Mam was released from hospital last year I was concerned about how both she and I would cope. I need not have worried. Philomena and her team are so kind, caring and professional. Having the same carer on a consistent basis means that Mam can get to know them and feel comfortable with them. Philomena is regularly in contact for feedback and she frequently visits Mam to see how she is, first hand. I would be truly lost without Servisource and the care and attention they provide to Mam and would be happy to recommend them to anyone"*
